There are many problems like political, social, economic, etc. in our country is a major problem like those..... has critical effects in our daily/social life. No doubt. It is a course in our life. The unconsciousness of the mass people and lack of moral lesson among them are mainly responsible for this problems suffers people in many ways. Day by day this

problems is increasing rapidly. But this is not out of solution. Along the government is not able to solve it fully. Everybody of us should come forward to solve this problem with the government. If we can not solve this problem, it will hinder our national development. It will paralyse our national life. If we want to build up a developed country, the people of all walks of life should come forward to solve this problem. Otherwise, we will fall backward as a nation. So. All concerned must join their hands to liberate the people from the
